WSO Sustainability Event

WELLINGTON CLUSTER PUBLIC SPEAKING COMPETITION

Inspiring a Greener Tomorrow

WEDNESDAY, 5TH, 2024 | 9 AM – 12PM
WSO SECONDARY AUDITORIUM

Join us for an enriching experience at our Sustainability Public Speaking Competition where voices unite to advocate for a more sustainable future. Whether you're a seasoned speaker or a budding advocate, this platform invites you to share your insights, passion, and innovative ideas to inspire change. Winners will receive a prize as well as certificates.

See next page for more details and how to enter.

WELLINGTON CLUSTER PUBLIC SPEAKING COMPETITION.

Key Information:

This event will be split into three categories: KS2 (Year 5-6) KS3 (Year 7-9) KS4 (Year 10-13) Each one will have a topic area, shown below, which their speech must be based upon.

The expectation is that pupils will write a 3-5-minute-long speech which is inspiring, enthusiastic, knowledgeable on the environment and creative. There will be a panel of judges who will score each speech based on a set criteria (shown on the next page)

Each school can enter a maximum of 4 pupils for each category.

KS2 (Year 5-6) - Why is plastic pollution destroying our earth? Can we stop it?

Address the global issue of plastic pollution and explore strategies to reduce plastic waste and promote alternatives.

KS3 (Year 7-9) - The Role of Youth in Climate Action:

Discuss how young people can be the drivers of change and can influence policies to address climate change and promote sustainability. Inspire the future generation, What can we do to stop climate change?

KS4 (Year 10-13) -Green Innovation and Technology for Sustainability:

Your speech should Showcase ideas for cutting-edge technologies and innovations that are environmentally friendly. This can be within a sector of your choice. The perfect business pitch for your idea to help save the planet.

WELLINGTON CLUSTER PUBLIC SPEAKING COMPETITION.

Each speech will be judged on the following criteria:

Style and Communication Skills:

Assess the clarity of the speaker's message, organization of ideas, and overall communication skills. Effective delivery, including clear articulation, appropriate pacing, and use of visuals, enhances the audience's understanding and engagement.

Impact and Engagement:

Evaluate the potential impact of the speech on raising awareness and inspiring action among the audience. Speakers should engage the audience effectively, conveying the urgency and importance of sustainability issues

Content:

The speech content must directly relate to the sustainability issue as detailed in the category topic. Speakers should present innovative and practical solutions/ideas to sustainability challenges, offering actionable steps that individuals or communities can take to make a positive impact.

Evidence-Based Arguments (KS3-KS4 ONLY)

Speakers should support their ideas with credible evidence, research, or data related to their topic area.
