WSO Sustainability Event

WELLINGTON CLUSTER PUBLIC SPEAKING COMPETITION

Inspiring a Greener Tomorrow

WEDNESDAY, 5TH, 2024 | 9 AM – 12PM
WSO SECONDARY AUDITORIUM

Join us for an enriching experience at our Sustainability Public Speaking Competition where voices unite to advocate for a more sustainable future. Whether you're a seasoned speaker or a budding advocate, this platform invites you to share your insights, passion, and innovative ideas to inspire change. Winners will receive a prize as well as certificates.

See next page for more details and how to enter.

Environmental public speaking competition:

Do you like public speaking? Are you someone who cares about protecting our planet? Do you want to make a difference?

This is perfect for those interested in the environment and also a keen interest in technology, business and innovation.

<u>KS4 (Year 10-13) -Green Innovation and Technology for Sustainability:</u>

Your speech should Showcase ideas for cutting-edge technologies and innovations that are environmentally friendly. This can be within a sector of your choice. The perfect business pitch for your idea to help save the planet.

Submit your 2–5-minute **<u>persuasive</u>** speech to Miss Reid via email: <u>s.reid1_wso@gemsedu.com</u> or hand in a paper copy to 4G15 by MONDAY 20TH MAY

Criteria for your speech:

To focus on the most critical criteria for a sustainable public speaking event, consider the following five key aspects:

1. **Relevance to Sustainability:**
   1. The speech content must directly relate to sustainability issues such as climate change, biodiversity conservation, sustainable development, or eco-friendly practices. The topic should be timely and significant in the context of environmental stewardship.
2. **Innovative Solutions and Actionable Ideas:**
   1. Speakers should present innovative and practical solutions to sustainability challenges, offering actionable steps that individuals or communities can take to make a positive impact.
3. **Impact and Engagement:**
   1. Evaluate the potential impact of the speech on raising awareness and inspiring action among the audience. Speakers should engage the audience effectively, conveying the urgency and importance of sustainability issues.
4. **Evidence-Based Arguments:**
   1. Speakers should support their ideas with credible evidence, research, or data related to sustainability. This criterion ensures that presentations are grounded in facts and contribute to informed discussions.
5. **Clarity and Communication Skills:**
   1. Assess the clarity of the speaker's message, organization of ideas, and overall communication skills. Effective delivery, including clear articulation, appropriate pacing, and use of visuals, enhances the audience's understanding and engagement.
